Student Permission Form

The Commonwealth Games Education Program website and CGReps GameZINE are designed for Victorian teachers and students to encourage them to become involved in the education program for the Commonwealth Games.

The GameZINE will showcase the work produced in local school communities as part of the Commonwealth Games Education program and provide advice on how schools can become involved and the sorts of activities they can undertake. Work published in the E-Zine may also be published on the Education website or in other Commonwealth Games publications and will include: writing; artwork; music; profiles of local school communities; collaborative projects; achievements and school community activities.

If you have any queries please discuss this with the contact teacher shown below or the Commonwealth Games Education Team representative, Robin Vargo at robin@dk2.com.au.

Please note that while the GameZINES will be sent to registered schools only, the website is accessible by a global audience. Your student's privacy will be protected with only their first name and school details made available in any digital formats.

The website can be viewed on the internet at the following address:

Detailed notes to help you in preparing your CGReps GameZINE article are on page 3 of this form.
